CAREER SUMMARY:

I am a logical and results-driven web developer, passionate about creating user-focused websites and web applications that meet the unique needs of my organization. I have a unique combination of creative and technical skills which I use to develop websites, applications, and platforms that give my organization a competitive advantage and drive revenue growth. I am an analytical problem solver with a calm and focused demeanor, and I always strive to ensure that the projects I work on are optimized for maximum success. My goal is to create websites and applications that are both visually appealing and highly functional, while also meeting the specific needs of my organization.

Competencies:

- HTML & CSS
- Bootstrap
- Tailwind CSS
- JavaScript
- TypeScript
- Responsive design
- Nodejs
- React
- Redux

LASCOM TECHNOLOGIES

Sep 2022 – Present

FRONTEND DEVELOPER (REACT)

ACHIEVEMENT:

- Built an escrow service website.
- Work with a team of five developers to create and maintain an e-commerce web application using React.

- Collaborate with designers to implement user interface changes based on client feedback.
- Employed a variety of languages of languages such as HTML and CSS to write and create user friendly web pages

UNICUS

Feb 2020 – Aug 2021

RESPONSIBILITIES:

- Worked with html, CSS, JavaScript and react to implement websites
- Updated old code bases to modern development standards, improving functionality.
- Discussed issues with team members to provide resolution and apply best practices.

EDUCATION:

Petroleum Training Institute,

2018

Higher National diploma (Electrical Electronic Engineering)

ACCOMPLISHMENTS:

I have created a variety of projects using React and Bootstrap, such as a music player, a basic calculator, and a to-do app with React and Typescript. I have also worked on other projects using React, Bootstrap, and Tailwind.
