Personal statement

A passionate and skilled full stack web developer with over three years of experience in building websites and web applications using various technologies. Proficient in React, Next.js, HTML, CSS, JavaScript, Node.js, Express.js and other web development tools. Experienced in developing e-commerce, advertising agency, blog, and lots more. Seeking to leverage my technical and creative abilities to create engaging and user-friendly web solutions.

Work experience

- **Lascom technologies**
  Web Developer (Aug 2022 – Dec 2022)

  - Developed and maintained various websites and web applications using React, Next.js, HTML, CSS, JavaScript, Node.js and Express.js.
  - Implemented responsive web design principles to ensure that websites function across different devices and browsers.
  - Used RESTful APIs to integrate data from various sources and services.
  - Applied best practices for code quality, performance, security and accessibility.
  - Collaborated with other developers, designers and clients using Git and GitHub.

- **Unicus**
  Web Developer (Feb 2020 – June 2021)

  - Learned how to use HTML, CSS and JavaScript to build dynamic and interactive web pages.
  - Fixed bugs and improved the functionality and usability of existing websites.
  - Received positive feedback from mentors and clients for my work ethic and enthusiasm.
